A T-SHIRT TAILORED FOR THE PLANET

Our aim has always been to design clothes suitable for everyone. We are also aware of the need to protect the environment. In order to be able to move forward with our goal, we must look after the place where we live so that when you wear one of our garments, you feel right at home.

We ensure that all processes carried out on our products have the least impact on the planet and those who live on it. Year after year, we are increasing the percentage of Eco-friendly, organic and recycled fabrics in our catalogue while still using the highest quality raw materials in order to continue to feel very proud of our products.

SUSTAINABILITY IS NOT A PASSING FAD, BUT A LASTING RESPONSIBILITY FOR ALL OF US

At **JHK**, we are committed to launching sustainable and environmentally-friendly products in the market, as well as improving their quality to extend the product's life-cycle and chance of it being recycled. This is reflected in our work process, in the use of Eco-friendly, organic and recycled materials. We also look after our production processes to ensure we provide our clients with a better product and our workers with a better working environment.

We hope our product improvements contribute to making the world a better place.

SMALL GESTURES THAT MAKE A DIFFERENCE

Because we love the place where we live and we want it to be a bit better every day, we are constantly committed to our environment. That's why we've been working for some time now on reducing our carbon footprint and thus contributing to protecting the environment, carrying out specific actions to this end.

At **JHK**, we have implemented a policy of reducing the use of plastic in both our packaging and boxes.

That's why, gradually, all our products will eventually arrive protected in a single bag inside each box, made from 100% recycled and recyclable plastics.

- 1 Each WASH polo is "unique". Polo of the same color can have different shades as they are tinted with natural pigments and that is what makes them unique. For this reason, we recommend washing the garment separately, since each wash may lose color and acquire that aged tone.
