How to show something that needs to be held and touched?

It wasn't easy to find something that describes best what is so special about EXCD. Why? Because you cannot see what makes it so special. But you can feel it. So we sat down together and tried to find something you know that has the same properties as this new workwear fabric. And the answer is: Light. Because light is power, it protects us and it knows no limits. Just like EXCD.

For EXCD we pushed beyond our limits. Where are your limits?

A handwritten signature in white ink that reads "M. Schuster". The signature is fluid and cursive, with a large initial "M" and a stylized "S".

Melanie Schuster, Head of Sales & Marketing

A hand in a black sleeve reaches out from the right side of the frame, palm facing left, against a dark red, textured background. The lighting is dramatic, highlighting the hand and the texture of the surface. The overall mood is one of aspiration and reaching for goals.

# EXCD

by promodoro

With EXCD we present our latest innovation especially made for those who exceed the limit every day and expect the same from their clothing. With EXCD we exceed your expectations.

Our product development is always creating new collections adapted to our customers demand. To ensure that each item keeps its promises we pay special attention to optimized fabrics and cuts. The EXCD collection is extremely rugged and flexible making use of the latest VORTEX® Spinning Technology:

VORTEX® yarn is less hairy and has a better resistance to pilling and abrasion. It allows a long lasting fabric performance through a greater number of washing

cycles, an optimal colour fastness and it is less prone to shrink. VORTEX® yarn provides a better moisture absorption and quick dry properties.

Our EXCD collection is made of cotton rich composition which is 60 % cotton and 40 % polyester, selected for a perfect mix of wearing comfort and functionality. The garments are washable at 160°, dryer-proof and tested according to ISO 15797 industrial washing and finishing procedures.

The professional EXCD workwear collection includes: men and women short and long-sleeve T-shirts, polos, sweatshirts and sweat-jackets in sizes XS-5XL in up to 15 colours.

## VORTEX® YARN TECHNOLOGY

In the VORTEX® Spinning Technology, the ends of each fibers are spun with help of flow of compressed air. Similar like a whirl, the air draws the fibers together to the yarn center.

Each fiber is insured with the inner yarn and generates a stable yarn with less hairiness. The yarn is extremely durable and long-lasting. The VORTEX® yarn from cotton-polyester has resistance to abrasion and pilling. Low shrinkage and optimal colour fastness optimizes our EXCD Premium collection.
